

The Engineering Design Process

Your Engineering Design Process - Chart (EDPC)

Steps in the Engineering Design Process	How You Completed the Steps
<p style="text-align: center;">Define the Problem</p> <p>What are you trying to solve?</p>	
<p style="text-align: center;">Ideate</p> <p>What are possible solutions to your problem? Generate as many ideas as possible!</p>	
<p style="text-align: center;">Develop Your Plan</p> <p>Select one idea to move forward with. What steps will you take to make this idea a reality?</p> <p>Include the details of your plan in your blueprint below</p>	
<p style="text-align: center;">Prototype</p> <p>Create your model.</p> <p>Did you encounter any problems or have to change your design at any point?</p>	
<p style="text-align: center;">Try It Out!</p> <p>Test your design. Does it perform the way your expected?</p>	
<p style="text-align: center;">Reflect</p> <p>Is there anything you can do to improve your design?</p>	

If you need more room, you can attach additional sheets of paper

Your Blueprint

Be sure to label your design and include all the materials used
